PROFESSIONAL SUMMARY

Software Engineering graduate (CGPA 4.27/5.00) with practical experience in data cleaning, exploratory data analysis, data visualization and business intelligence reporting using Python, Pandas, NumPy, Microsoft Excel and Power BI, with foundational SQL. Experienced in identifying data quality issues, analyzing business performance and building dashboards that communicate clear insights. Seeking an entry-level Data Analyst, Reporting Analyst or Business Intelligence role.

TECHNICAL SKILLS

Data analysis: Python, Pandas, NumPy, data cleaning and validation, EDA, statistical analysis, data visualization
BI & reporting: Microsoft Excel, Power BI, KPI development, dashboard development, business reporting, Matplotlib, Seaborn
Databases: SQL (foundational), PostgreSQL, SQLite, database management, data extraction
Programming & tools: Python, Django, HTML, CSS, JavaScript, Jupyter Notebook, VS Code, Git, GitHub
Currently learning: Web scraping with Python (current); scikit-learn and machine learning (next)

DATA ANALYTICS & TECHNICAL PROJECTS

E-Commerce Sales Performance Analysis & Dashboard — Independent project
GitHub: github.com/lbash-bk/E-Commerce-Sales-Performance-Analysis-and-Dashboard

- Cleaned and transformed a 5,000-transaction e-commerce dataset with Python and Pandas; analyzed revenue, order volume, average order value, categories, regions and payment methods to identify top performers.
- Built visualizations and an interactive Power BI dashboard to communicate business performance and KPIs.
- **Key findings:** total revenue of approximately 5.1 million from 5,000 orders, with an average order value of about 1,021.96.

Bank Customer Churn Analysis — Independent project
GitHub: github.com/lbash-bk/Bank_Customers_Churn_Analysis

- Cleaned and validated customer and account datasets with Python and Pandas (duplicates, missing values, inconsistent data types, invalid entries).
- Combined customer and account data on CustomerID; explored customer characteristics and churn-related patterns.
- Developed a Power BI dashboard presenting churn KPIs, customer segments and analytical findings.

Sales Data Analysis & Power BI Dashboard — 2026
Data Science Nigeria Bootcamp | GitHub: github.com/lbash-bk/2026-Nigerian-Data-Science-Bootcamp-Project

- Cleaned a sales transaction dataset with Python and Pandas: removed 12 duplicate TransactionID records and handled 31 missing Cost_Per_Unit_NGN values using product-based imputation.
- Validated revenue calculations, ran data quality checks and explored sales performance and trends.
- Developed a Power BI dashboard of KPIs and findings, delivered within the bootcamp deadline.

FUD Study Hub: Academic Resource Management Platform — Federal University Dutse
Project Manager & System Architect | Live: fud-study-hub.onrender.com

- Identified students' difficulty accessing lecture notes, past examination questions and other resources; designed and coordinated development of a centralized platform.
- Contributed to development with Python, Django, HTML, CSS and JavaScript, implementing user authentication, role-based access, and material upload and download.
- Used SQLite in development and PostgreSQL in production; coordinated project activities, contributed to architecture decisions and deployed the application on Render.

PROFESSIONAL EXPERIENCE

Student Intern, Web Developer | Stem Innovators Lab, Nassarawa, Kano State, Nigeria — Jul 2024 – Dec 2024

- Developed responsive web interfaces using front-end web technologies.
- Identified, debugged and resolved front-end issues to improve application functionality and user experience.
- Used Git and GitHub for version control, code management and collaborative development.

EDUCATION

B.Sc. Software Engineering | Federal University Dutse, Jigawa State, Nigeria — Graduated December 2025
CGPA: 4.27/5.00

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Data Analysis Certificate, Nigerian Youth Academy (NIYA), September 2026
- Python Programming Certificate, SoloLearn, February 2025
- Additional: HTML (SoloLearn, 2022); Cisco Packet Tracer / Networking (Al-Hikmah CBT Center, 2022); Data Processing (Federal Medical Center, Birnin Kudu, 2021); NACOS National Summit participation (2023)

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Faculty Sports Director, Faculty of Computing, Federal University Dutse — 2024 – 2025

- Coordinated faculty sports activities; helped lead the faculty football team to the final of the Vice-Chancellor's competition.
